S5 218 RD S4 (unique items)
? t s5/6/1-100

5/6/1 (Item 1 from file: 5)
13506597 BIOSIS NO.: 200200135418
Interleukin 1 receptor antagonist gene polymorphism and adverse
pregnancy outcome in 207 pregnancies.
2001

5/6/2 (Item 2 from file: 5)
13506517 BIOSIS NO.: 200200135338
Polymorphism in the **interleukin** 1 gene complex and preterm delivery.
2001

5/6/3 (Item 3 from file: 5)
13426370 BIOSIS NO.: 200200055191
Value of amniotic fluid neutrophil collagenase concentrations in preterm
premature rupture of membranes.
2001

5/6/4 (Item 4 from file: 5)
13254038 BIOSIS NO.: 200100461187
Persistent detection of alfa-fetoprotein in the vagina without overt
preterm **premature rupture** of the membranes: Clinical and
chemical characterizations.
2001

5/6/5 (Item 5 from file: 5)
13211019 BIOSIS NO.: 200100418168
Umbilical cord plasma **interleukin**-6 and fetal growth restriction in
preeclampsia: A prospective study in Norway.
2001

5/6/6 (Item 6 from file: 5)
13169013 BIOSIS NO.: 200100376162
IL-18, a product of choriodecidual cells, increases during **premature**
rupture of membranes but fails to turn on the Fas-FasL-mediated
apoptosis pathway.
2001

5/6/7 (Item 7 from file: 5)
13140494 BIOSIS NO.: 200100347643
Prediction of **pregnancy** outcome in preterm **premature**
rupture of membranes using vaginal pool amniotic fluid markers.
2001

5/6/8 (Item 8 from file: 5)
12964294 BIOSIS NO.: 200100171443
Evaluation of delayed **interleukin**-10 tocolytic therapy in a rat model
of endotoxin-induced preterm labor.
2001

5/6/9 (Item 9 from file: 5)
12960318 BIOSIS NO.: 200100167467
Fetal carriage of IL-1beta*2 is not associated with premature membrane
rupture and preterm delivery.
2001

5/6/10 (Item 10 from file: 5)
12960304 BIOSIS NO.: 200100167453
Role of amniotic fluid matrix metalloproteinase-9 and **interleukin**-6
in prediction of intra-amniotic infection.
2001

5/6/11 (Item 11 from file: 5)
12948620 BIOSIS NO.: 200100155769
An elevated amniotic fluid matrix metalloproteinase-8 at the time of
midtrimester genetic amniocentesis identifies patients at risk for
spontaneous preterm delivery.
2001

5/6/12 (Item 12 from file: 5)
12866595 BIOSIS NO.: 200100073744
Participation of the novel cytokine **interleukin** 18 in the host
response to intra-amniotic infection.
2000

5/6/13 (Item 13 from file: 5)
12866585 BIOSIS NO.: 200100073734
Further observations on the fetal inflammatory response syndrome: A
potential homeostatic role for the soluble receptors of tumor necrosis
factor alpha.
2000

5/6/14 (Item 14 from file: 5)
12764942 BIOSIS NO.: 200000518565
Interleukin 6 determinations in cervical fluid have diagnostic and
prognostic value in preterm **premature rupture** of membranes.
2000

5/6/15 (Item 15 from file: 5)
12554474 BIOSIS NO.: 200000307976
IL-18 in **pregnancy**; the elevation of IL-18 in maternal peripheral

blood during labour and complicated pregnancies.
2000

5/6/16 (Item 16 from file: 5)
12476458 BIOSIS NO.: 200000229960
Bacterial presence in amniotic fluid at time of genetic amniocentesis.
2000

5/6/17 (Item 17 from file: 5)
12363759 BIOSIS NO.: 200000117261
Interleukin 16 in **pregnancy**, parturition, rupture of fetal
membranes, and microbial invasion of the amniotic cavity.
2000

5/6/18 (Item 18 from file: 5)
12310161 BIOSIS NO.: 200000068028
Malaria and **pregnancy**: Placental cytokine expression and its
relationship to intrauterine growth retardation.
1999

5/6/19 (Item 19 from file: 5)
12035217 BIOSIS NO.: 199900315736
Antibiotics: Treatment of preterm labor.
1999

5/6/20 (Item 20 from file: 5)
11913019 BIOSIS NO.: 199900159128
Oligohydramnios in preterm **premature rupture** of membranes is
associated with an intense fetal, amniotic and maternal inflammatory
response but not fetal acidemia.
1999

5/6/21 (Item 21 from file: 5)
11792411 BIOSIS NO.: 199900038520
An increase in fetal plasma cortisol but not dehydroepiandrosterone sulfate
is followed by the onset of preterm labor in patients with preterm
premature rupture of the membranes.
1998

5/6/22 (Item 22 from file: 5)
11627894 BIOSIS NO.: 199800410508
A fetal systemic inflammatory response is followed by the spontaneous onset
of preterm parturition.
1998

5/6/23 (Item 23 from file: 5)
11482694 BIOSIS NO.: 199800264026
Elevated **interleukin-8** concentrations in amniotic fluid of mothers
whose neonates subsequently develop bronchopulmonary dysplasia.
1998

5/6/24 (Item 24 from file: 5)
11391863 BIOSIS NO.: 199800173195

Accumulation of **interleukin-1beta** and **interleukin-6** in amniotic fluid: A sequela of labour at term and preterm.
1997

5/6/25 (Item 25 from file: 5)
11371187 BIOSIS NO.: 199800152519
Interleukin-16 in **pregnancy**, parturition, rupture of membranes and microbial invasion of the amniotic cavity.
1998

5/6/26 (Item 26 from file: 5)
11102410 BIOSIS NO.: 199799723555
Structural components of the ECM and their role in cell signalling in the human fetal membranes.
1997

5/6/27 (Item 27 from file: 5)
10941514 BIOSIS NO.: 199799562659
Interleukin-8 in urine: A new diagnostic parameter for intra-amniotic infection after **premature rupture** of the membranes.
1997

5/6/28 (Item 28 from file: 5)
10935935 BIOSIS NO.: 199799557080
Interleukin-4, **interleukin-10**, and soluble tumor necrosis factor receptors in cord blood.
1997

5/6/29 (Item 29 from file: 5)
10100818 BIOSIS NO.: 199598555736
Amniochorion: A source of **interleukin-8**.
1995

5/6/30 (Item 30 from file: 5)
09645276 BIOSIS NO.: 199598100194
II. Expression of TNF-alpha TNFR p55 in cultured amniochorion.
1994

5/6/31 (Item 31 from file: 5)
09500870 BIOSIS NO.: 199497509240
Interleukin-10 in amniotic fluid at midtrimester: Immune activation and suppression in relation to fetal growth.
1994

5/6/32 (Item 32 from file: 5)
07640765 BIOSIS NO.: 000092010709
CYTOKINES IN NORMAL AND ABNORMAL PARTURITION ELEVATED AMNIOTIC FLUID **INTERLEUKIN-6** LEVELS IN WOMEN WITH **PREMATURE RUPTURE** OF MEMBRANES ASSOCIATED WITH INTRAUTERINE INFECTION
1991

5/6/33 (Item 1 from file: 34)
10360298 Genuine Article#: 517XY Number of References: 36

Title: Definition of a type of abnormal vaginal flora that is distinct from
bacterial vaginosis: aerobic vaginitis (ABSTRACT AVAILABLE)
Publication date: 20020100

5/6/34 (Item 2 from file: 34)
10340601 Genuine Article#: 515PU Number of References: 31
Title: Identification of matrix metalloproteinase-9 in amniotic fluid and
amniochorion in spontaneous labor and after experimental intrauterine
infection or **interleukin-1** beta infusion in pregnant rhesus
monkeys (ABSTRACT AVAILABLE)
Publication date: 20020100

5/6/35 (Item 3 from file: 34)
09941055 Genuine Article#: 467NR Number of References: 79
Title: Genital mycoplasmosis in rats: A model for intrauterine infection (
ABSTRACT AVAILABLE)
Publication date: 20010900

5/6/36 (Item 4 from file: 34)
09910802 Genuine Article#: 463PE Number of References: 276
Title: **Pregnancy** outcomes and community health: the POUCH study of
preterm delivery (ABSTRACT AVAILABLE)
Publication date: 20010700

5/6/37 (Item 5 from file: 34)
09910799 Genuine Article#: 463PE Number of References: 77
Title: Identification of biological/biochemical marker(s) for preterm
delivery (ABSTRACT AVAILABLE)
Publication date: 20010700

5/6/38 (Item 6 from file: 34)
09554130 Genuine Article#: 420DX Number of References: 49
Title: Chorioamnionitis and fetal/neonatal brain injury (ABSTRACT
AVAILABLE)
Publication date: 20010000

5/6/39 (Item 7 from file: 34)
09192819 Genuine Article#: 377KD Number of References: 25
Title: Histologic inflammation in the maternal and fetal compartments in a
rabbit model of acute intra-amniotic infection (ABSTRACT AVAILABLE)
Publication date: 20001100

5/6/40 (Item 8 from file: 34)
09143404 Genuine Article#: 372BH Number of References: 38
Title: Infection and preterm labor
Publication date: 20001200

5/6/41 (Item 9 from file: 34)
08969231 Genuine Article#: 350JD Number of References: 28
Title: Intercellular-adhesion-molecule-1 as diagnostic serum marker for
chorioamnionitis, preeclampsia and HELLP-syndrome (ABSTRACT AVAILABLE)
Publication date: 20000700

5/6/42 (Item 10 from file: 34)
08891065 Genuine Article#: 341HK Number of References: 23
Title: Predictive value of serum **interleukin-6** and-8 levels in
preterm labor or rupture of the membranes (ABSTRACT AVAILABLE)
Publication date: 20000800

5/6/43 (Item 11 from file: 34)
07819034 Genuine Article#: 211MJ Number of References: 47
Title: Clinical aspects of ovarian hyperstimulation syndrome (ABSTRACT
AVAILABLE)
Publication date: 19990700

5/6/44 (Item 12 from file: 34)
07438749 Genuine Article#: 165TB Number of References: 8
Title: Study of **interleukin-6** and tumor necrosis factor-alpha levels
in maternal serum and amniotic fluid of patients with **premature**
rupture of membranes (ABSTRACT AVAILABLE)
Publication date: 19980000

5/6/45 (Item 13 from file: 34)
07438741 Genuine Article#: 165TB Number of References: 14
Title: Immunoreactivity of human fetal membranes to peptidoglycan
polysaccharide (PGPS): cytokine response (ABSTRACT AVAILABLE)
Publication date: 19980000

5/6/46 (Item 14 from file: 34)
07240587 Genuine Article#: 140BK Number of References: 20
Title: Elevated amniotic fluid levels of leukemia inhibitory factor,
interleukin 6, and **interleukin 8** in intra-amniotic
infection (ABSTRACT AVAILABLE)
Publication date: 19981100

5/6/47 (Item 15 from file: 34)
07240585 Genuine Article#: 140BK Number of References: 25
Title: Microbial invasion of the amniotic cavity with Ureaplasma
urealyticum is associated with a robust host response in fetal,
amniotic, and maternal compartments (ABSTRACT AVAILABLE)
Publication date: 19981100

5/6/48 (Item 16 from file: 34)
06686737 Genuine Article#: BK79Q Number of References: 51
Title: Eicosanoids in periodontal diseases: Potential for systemic
involvement (ABSTRACT AVAILABLE)
Publication date: 19970000

5/6/49 (Item 17 from file: 34)
06379439 Genuine Article#: YN524 Number of References: 32
Title: The correlation between placental pathology and intraventricular
hemorrhage in the preterm infant (ABSTRACT AVAILABLE)
Publication date: 19980100

5/6/50 (Item 18 from file: 34)
06147749 Genuine Article#: XX890 Number of References: 26
Title: **IL-1** alpha induces inducible nitric oxide synthase in

uterine smooth muscle (ABSTRACT AVAILABLE)
Publication date: 19970908

5/6/51 (Item 19 from file: 34)
06006536 Genuine Article#: XN725 Number of References: 28
Title: Early neonatal nucleated erythrocyte counts in preterm deliveries
clinical and pathologic correlations (ABSTRACT AVAILABLE)
Publication date: 19970500

5/6/52 (Item 20 from file: 34)
05958752 Genuine Article#: XK227 Number of References: 19
Title: **Interleukin-6** and neopterin levels in serum of patients with
preterm labour with and without infection (ABSTRACT AVAILABLE)
Publication date: 19970700

5/6/53 (Item 21 from file: 34)
05921491 Genuine Article#: XG570 Number of References: 240
Title: Autoimmune disease in **pregnancy** - Systemic lupus erythematosus
and antiphospholipid syndrome (ABSTRACT AVAILABLE)
Publication date: 19970600

5/6/54 (Item 22 from file: 34)
05811496 Genuine Article#: WZ192 Number of References: 33
Title: Intrauterine growth restriction does not alter response of protein
synthesis to feeding in newborn pigs (ABSTRACT AVAILABLE)
Publication date: 19970500

5/6/55 (Item 23 from file: 34)
05687176 Genuine Article#: WQ358 Number of References: 49
Title: An autocrine/paracrine role of human decidual relaxin .1.
Interstitial collagenase (Matrix metalloproteinase-1) and tissue
plasminogen activator (ABSTRACT AVAILABLE)
Publication date: 19970400

5/6/56 (Item 24 from file: 34)
05678063 Genuine Article#: WP684 Number of References: 29
Title: Fetal fibronectin as a predictor of preterm birth in patients at
increased risk (ABSTRACT AVAILABLE)
Publication date: 19970100

5/6/57 (Item 25 from file: 34)
05442151 Genuine Article#: VZ204 Number of References: 137
Title: PREDICTION OF PREMATURITY (Abstract Available)

5/6/58 (Item 26 from file: 34)
05437124 Genuine Article#: VY823 Number of References: 28
Title: PERIVENTRICULAR LEUKOMALACIA - RISK-FACTORS REVISITED (Abstract
Available)

5/6/59 (Item 27 from file: 34)
05386178 Genuine Article#: VU946 Number of References: 23
Title: SERUM C-REACTIVE PROTEIN, WHITE BLOOD-CELL COUNT, AND AMNIOTIC-FLUID
WHITE BLOOD-CELL COUNT IN WOMEN WITH PRETERM **PREMATURE**

RUPTURE OF MEMBRANES (Abstract Available)

- 5/6/60 (Item 28 from file: 34)
05357520 Genuine Article#: VT373 Number of References: 27
Title: REGULATION OF CULTURED HUMAN CHORION CELL CHEMOKINE PRODUCTION BY
GROUP-B STREPTOCOCCI AND PURIFIED BACTERIAL PRODUCTS (Abstract
Available)
- 5/6/61 (Item 29 from file: 34)
05331841 Genuine Article#: VQ915 Number of References: 144
Title: STRESS, SOCIAL SUPPORT AND **PREGNANCY** OUTCOME - A REASSESSMENT
BASED ON RECENT RESEARCH (Abstract Available)
- 5/6/62 (Item 30 from file: 34)
05331257 Genuine Article#: VQ605 Number of References: 25
Title: MEASUREMENT OF **INTERLEUKIN-1-ALPHA** AND **INTERLEUKIN-6** IN
PREGNANCY-ASSOCIATED TISSUES (Abstract Available)
- 5/6/63 (Item 31 from file: 34)
05319344 Genuine Article#: VP878 Number of References: 15
Title: UTERINE AND FETAL BLOOD FLOWS IN PREGNANCIES COMPLICATED BY PRETERM
LABOR (Abstract Available)
- 5/6/64 (Item 32 from file: 34)
05318132 Genuine Article#: VP849 Number of References: 30
Title: PERIODONTAL INFECTION AS A POSSIBLE RISK FACTOR FOR PRETERM

ABSTRACT: OBJECTIVE: Our aim was to determine the association between fetal carriage of the **interleukin 1 beta** (IL-1beta) gene polymorphism at position +3954 with preterm delivery. STUDY DESIGN: Two hundred ten singletons delivered ltoreq32 weeks (PTD group) were compared with 301 singletons delivered at term. The IL-1beta +3954 genotype was determined from neonatal blood spots using polymerase chain reaction-restriction fragment length polymorphism (PCR-RFLP). Intergroup differences were determined using nonparametric analysis. RESULTS: The carrier frequency of the high secreting IL-1beta*2 allele (heterozygotes + homozygotes) in these 2 groups was 42.8% versus 43.5% for the PTD and term groups, respectively (chi2 = 0.05; P = .82). The IL-1beta*2 allele frequency was 0.24 versus 0.26, respectively (chi2 = 0.43, P = .51). In addition, there was no difference in the frequency of premature membrane rupture (**PROM**) for each genotype. CONCLUSION: In a previous study we have demonstrated that carriage of the high secreting tumor necrosis factor*2 (TNF*2) allele, at position -308, was associated with PTD after **PROM**. We have failed to demonstrate such an association with the IL-1beta*2 allele. This suggests the inflammatory response underlying **PROM** and PTD is specific to TNF-alpha rather than a general response involving for example IL-1beta.

ABSTRACT: From the finding of micro-organisms or inflammatory mediators, or both, in amniotic fluid (AF), it has been proposed that intrauterine infection is one cause of preterm labour (**PTL**, intact fetal

membranes). This theory, however, remains unproved, i.e. the accumulation of micro-organisms and inflammatory mediators in AF after labour is in progress may be the consequence, not the cause, of labour both at term and preterm. This study was conducted to evaluate this possibility by a comparison of the concentrations of **interleukin** (IL)-1beta and IL-6 in AFs collected before and during **PTL** (<34 weeks gestation) with those in AFs collected at term (before labour and from the forebag and upper compartments of the amniotic sac during labour). The concentrations of IL-1beta and IL-6 in AF were also analysed as a function of the duration of labour (term or preterm) before fluid collection. In addition, studies were conducted to define the source of IL-1beta in AF. A total of 666 AFs were evaluated. IL-1beta was not detected (<50 pg/ml) in AFs collected before the onset of labour at any stage of gestation (n = 320), including 170 fluids obtained at term. During labour, IL-1beta was detected (>50 pg/ml) in 58 out of 106 (54.7%), 17 out of 64 (26.6%) and 60 out of 176 (34%) of AF samples obtained during **PTL**, term labour (upper compartment) and term labour (forebag) respectively. AF sampling, as well as labour and delivery, were completed in <18 h in all term pregnancies. However, labour (with cervical dilation) was in progress for >18 h before AF was collected in 39 out of 106 (37%) **PTL** pregnancies. The incidence of IL-1beta-positive samples among AFs collected before 18 h of **PTL** (23 out of 67; 34%) was indistinguishable from that in AFs collected during labour at term. However, in AFs collected after >18 h **PTL**, the incidence of IL-1beta-positive samples was 35 out of 39 (89.7%) The concentrations of IL-1beta (pg/ml; mean \pm SEM) in AFs collected during **PTL** (2680 \pm 730; n = 106) were greater than those in AFs collected from the upper compartment and forebag during term labour (436 \pm 244, n = 64; and 468 \pm 119, n = 176) respectively; this difference, however, was attributable to very high concentrations of IL-1beta in AFs in which **PTL** was in progress for >18 h before AF collection (6021 \pm 1832; n = 39). The concentrations of IL-6 in AF were correlated with those of IL-1beta (P < 0.001). We conclude that IL-1beta and IL-6 accumulate in AF in a similar proportion of pregnancies during the first 18 h of term and preterm labour. Therefore, the accumulation of these cytokines in AF cannot be taken as evidence for a role for infection in the pathogenesis of **PTL**.

Abstract: Fetal and neonatal mortality and morbidity rates are strongly associated with gestational age for delivery: the risk for poor outcome increases as gestational age decreases. Attempts to predict preterm delivery (PTD, spontaneous delivery before 37 weeks' gestation) have been largely unsuccessful, and rates of PTD have not improved in recent decades. More recently, the reported associations between infections in **pregnancy** and PTD suggest preventive initiatives that could be taken.

The overall objective of the current study is to assess whether specific markers of infection (primarily **interleukin (IL) 1 beta**, tumour necrosis factor (TNF) alpha, IL-6, and IL-10) obtained from maternal blood during **pregnancy**, alone or in combination with other risk factors for PTD, permit identification of women at risk for spontaneous PTD. To achieve this objective, data are obtained from two Danish prospective cohort studies involving serial collection of maternal blood samples, newborn cord blood samples, and relevant confounders and other risk factors for PTD. The first study consists of a completed Danish regional cohort of 3000 pregnant women enrolled in a study of microbiological causes of PTD, upon which a nested case-control study of PTD in 84 cases and 400 controls has been performed. The second study is a nested case-control study of 675 PTD cases (equally divided into three gestational age categories of 24-29 weeks' gestation, 30-33 weeks' gestation, and 34-36 weeks' gestation) and 675 controls drawn from the ongoing Danish National Birth Cohort study of 100000 pregnant women enrolled during 1997-2001. The second study will provide the opportunity to refine and retest hypotheses from the first study, as well as to explore new hypotheses. Our preliminary work suggests that a single predictive marker effectively accounting for a large proportion of PTD is unlikely to be found. Rather, a search for multiple markers indicative of the multifactorial aetiology of PTD is likely to be more successful.

Knowledge gained from the proposed studies will be implemented in a third, clinical intervention study against PTD. The first phase of the clinical intervention study will be to establish a risk-assessment model based on the 'best' combination of biological/biochemical measures and other factors associated with PTD in order to identify pregnant women at very high risk of PTD. The second phase will be to apply an intervention model of tailored obstetric care to the very high-risk pregnant women for PTD identified in phase one. The intervention will be carried out against each specific risk factor associated with PTD identified for the individual. The aim is to reduce the risk for PTD attributed to the combination of risk factors included in the clinical intervention study.

Language: ENGLISH Document Type: ARTICLE

Abstract: PERIODONTAL DISEASES ARE GRAM-NEGATIVE ANAEROBIC INFECTIONS that can occur in women of childbearing age (18 to 34 years). In the present investigation we sought to determine whether the prevalence of maternal periodontal infection could be associated with preterm **low birth weight (PLBW)**, controlling for known risk factors and potential covariates. A case-control study of 124 pregnant or postpartum mothers was performed. **PLBW** cases were defined as a mother with a birth of less than 2,500 g and one or more of the following: gestational age <37 weeks, preterm labor (**PTL**), or **premature rupture** of membranes (**FROM**). Controls were normal birth weight infants (**NEW**). Assessments included a broad range of known obstetric risk factors, such as tobacco use, drug use, alcohol consumption, level of prenatal care, parity, genitourinary infections, and nutrition. Each subject received a periodontal examination to determine clinical attachment level. **PLBW** cases and primiparous **PLBW** cases (n = 93) had significantly worse periodontal disease than the respective **NEW** controls. Multivariate logistic regression models, controlling for other risk factors and covariates, demonstrated that periodontal disease is a statistically significant risk factor for **PLBW** with adjusted odds ratios of 7.9 and 7.5 for all **PLBW** cases and primiparous **PLBW** cases, respectively. These data indicate that periodontal diseases represent a previously unrecognized and clinically significant risk factor for preterm **low birth weight** as a consequence of either **PTL** or preterm **FROM**.

Mar 1995

5/6/202 (Item 23 from file: 155)

08468387 95160051 PMID: 7856675

Expression of inflammatory cytokines (**interleukin-1** beta and **interleukin-6**) in amniochorionic membranes.
Feb 1995

5/6/203 (Item 24 from file: 155)

08152206 94219144 PMID: 8165834

[Cytokines in the diagnosis of amniotic infection syndrome]
Zytokine in der Diagnostik des Amnion-Infekt-Syndroms.
Jan-Feb 1994

5/6/204 (Item 25 from file: 155)

08073327 93260298 PMID: 8492010

The role of matrix metalloproteinases for **premature rupture** of the membranes]
Mar 1993

5/6/205 (Item 26 from file: 155)

07907394 93286456 PMID: 8509668

Significance of amniotic fluid cytokines measurement in threatened preterm labor and **premature rupture** of the membranes]
Apr 1993

5/6/206 (Item 27 from file: 155)

07639969 92373064 PMID: 1506724

A biochemical study on the effects of **interleukin-6** for **premature rupture** of membranes]
Jun 1992

The relationship between interleukin-6, interleukin-8 concentrations and intrauterine infection and apgar scores

5/6/216 (Item 5 from file: 399)
DIALOG(R)File 399:(c) 2002 AMERICAN CHEMICAL SOCIETY. All rts. reserv.

Effect of IL-1 in amniotic fluid on the fetal keratinocyte

5/6/217 (Item 1 from file: 434)
09693667 Genuine Article#: AN610 Number of References: 85
Title: FETAL BEHAVIOR IN PRETERM **PREMATURE RUPTURE** OF THE
MEMBRANES

5/6/218 (Item 2 from file: 434)
06264043 Genuine Article#: ABV61 Number of References: 44
Title: REPRIORITIZATION OF HEPATIC PLASMA-PROTEIN RELEASE IN TRAUMA AND
SEPSIS
? s s5 and (mutation or polymorphism)
